

To: All Members of the Section on Dermatology

From: OMA President Dr. Sohail Gandhi

I wanted to reach out to you personally and provide important information about recommended fee schedule changes specific to Dermatology that will be in effect on April 1, 2020. This is a long email (apologies) but it does deal with finances, and how decisions were made.

I want to (briefly) recap the process that has led to the decisions on fee code changes. As you are all aware, for the first time in the history of Ontario, physicians were given an Arbitrated Award for a Physician Services Agreement (PSA). This is why there was no ratification vote. The Award is binding both on the OMA and the Ministry of Health (MOH).

As part of that process, the Arbitrator agreed that we must deal with the issues of relativity. The official OMA model for relativity is CANDI (the FAIR model you may have heard about is not final yet, it is in development). The government refused to accept CANDI. The official MOH model for relativity is RAANI. The OMA feels that there are serious, significant and unresolvable issues with RAANI, and we refused to accept it. The Arbitrator (acting in this case as a mediator), worked with both sides, and came up with the Hybrid model, and the Hybrid model will be used for all 4 years of the current PSA. *Please note, it has yet to be decided what relativity model will be used in the next PSA (2021-2025).*

As a result of the award and the Hybrid process, the Section on Dermatology was awarded a 1.8% normative increase.

This Hybrid model is not perfect. It does not address the fact that some services are provided by members in multiple Sections. If those fees go up, then the allocation to that Section will rise automatically.

In order to come up with fairest way of making changes, we tasked the Medical Services Payment Committee (MSPC) with the enormous responsibility of doing this for every Section. The timelines were tight as the MOH insisted they had to have a decision by December 18, 2019, in order to program their computers for April 1, 2020. I ask that you keep in mind that MSPC is a bilateral committee — half OMA and half MOH. For a decision to be made, both sides have to agree. If they don't agree, then we go to arbitration on those issues. By now, I believe all members are keenly aware of just how long arbitration takes.

In July, the MSPC sent letters to all Section executives outlining this process. In August, the MSPC surveyed members of each Section to see what fee codes were in need of change. On September 20, the Section executives were sent the survey results, and asked to provide input by October 14 (as mentioned the timelines were tight). This was to allow the OMA staff to model the effect of proposed changes on the members. It also allowed time for the MSPC to contact Sections as needed, to clarify their submissions. Our goal was to ensure that the fewest possible members had a negative impact.

The majority of Section executives, including the Section Executive for Dermatology, provided feedback, which helped inform the MSPC recommendations. I thank the Section Executive for all their hard work.

The MSPC went through multiple modeling exercises and came up with the best possible recommendations they could for Dermatology. The final recommendations indicate that with these changes, in the Section on Dermatology:

- 237 physicians will see an increase in their income (average of \$6,485, representing 1.83% of their billing).

The specific changes recommended by MSPC for your Section are provided below and also posted online [here](#). Recommendations for all OMA Sections and Medical Interest Groups, along with background documents related to the MSPC, are available on the OMA website [here](#).

As with all fee schedule changes, the MSPC recommendations will be submitted to Cabinet for final approval.
