To: All Members of the Section on Respiratory Disease From: OMA President Dr. Sohail Gandhi

I wanted to reach out to you personally and provide important information about recommended fee schedule changes specific to Respiratory Disease that will be in effect on April 1, 2020. This is a long email (apologies) but it does deal with finances, and how decisions were made.

I want to (briefly) recap the process that has led to the decisions on fee code changes. As you are all aware, for the first time in the history of Ontario, physicians were given an Arbitrated Award for a Physician Services Agreement (PSA). This is why there was no ratification vote. The Award is binding both on the OMA and the Ministry of Health (MOH).

As part of that process, the Arbitrator agreed that we must deal with the issues of relativity. The official OMA model for relativity is CANDI (the FAIR model you may have heard of is not final yet, it is in development). The government refused to accept CANDI. The official MOH model for relativity is RAANI. The OMA feels that there are serious, significant and unresolvable issues with RAANI, and we refused to accept it. The Arbitrator (acting in this case as a mediator), worked with both sides, and came up with the Hybrid model, and the Hybrid model will be used for all 4 years of the current PSA. *Please note, it has yet to be decided what relativity model will be used in the next PSA (2021-2025)*.

As a result of the award and the Hybrid process, the Section on Respiratory Disease was awarded a 4.8% normative increase.

This Hybrid model is not perfect. It does not address the fact that some services are provided by members in multiple Sections. If those fees go up, then the allocation to that Section will rise automatically.

In order to come up with the fairest way of making changes, we tasked the Medical Services Payment Committee (MSPC) with the enormous responsibility of doing this for every Section. The timelines were tight as the MOH insisted they had to have a decision by December 18, 2019, in order to program their computers for April 1, 2020. I ask that you keep in mind that MSPC is a bilateral committee — half OMA and half MOH. For a decision to be made, both sides have to agree. If they don't agree, then we go to arbitration on those issues. By now, I believe all members are keenly aware of just how long arbitration takes.

In July, the MSPC sent letters to all Section executives outlining this process. In August, the MSPC surveyed members of each Section to see what fee codes were in need of change. On September 20, the Section executives were sent the survey results, and asked to provide input by October 14 (as mentioned the timelines were tight). This was to allow the OMA staff to model the effect of proposed changes on the members. It also allowed time for the MSPC to contact Sections as needed, to clarify their submissions. Our goal was to ensure that the fewest possible members had a negative impact.

The majority of Section executives, including the Section Executive for Respiratory Disease, provided feedback, which helped inform the MSPC recommendations. I thank the Section Executive for all their hard work.

The MSPC went through multiple modeling exercises and came up with the best possible recommendations they could for Respiratory Disease. The final recommendations indicate that with these changes, in the Section on Respiratory Disease:

- 283 physicians will see an increase in their income (average of \$15,782, representing 4.49% of their billing).
- Less than 5 physicians will see a decrease (average of \$4,774, representing 1.18% of their billing). Keep in mind that this decrease would occur AFTER the return of the 4.45% clawback, i.e. if a physician billed \$300,000 for services in 2017/18, they would get \$313,972 in 2019/20. If they were to get an average dollar decrease, they would get \$310,258 for those same services in 2020/21.

The specific changes recommended by MSPC for your Section are provided below and also posted online <u>here</u>. Recommendations for all OMA Sections and Medical Interest Groups, along with background documents related to the MSPC, are available on the OMA website <u>here</u>.

As with all fee schedule changes, the MSPC recommendations will be submitted to Cabinet for final approval.

If you have any questions, or require additional information, please contact <u>mspc@oma.org</u>.

Ontario's Doctors Rock!

Sohail Gandhi OMA President

# Section on Respiratory Disease

# April 1, 2020 Recommended OHIP Schedule of Benefits Fee Changes

## Highlighted Fee Changes

#### **Consultation & Assessment Fee Increases**

Fee code	Description	Current Fee Value	New Fee Value	Percent Increase
A/C475	Consultation	\$157.00	\$169.65	8.06%
A/C473	Medical specific assessment	\$79.85	\$84.65	6.01%
A/C474	Medical specific re-assessment	\$61.25	\$63.70	4.00%
A/C471	Complex medical specific re-assessment	\$70.90	\$73.75	4.02%
A478	Partial assessment	\$38.05	\$38.25	0.53%

#### Various Other Fee Increases

Fee code	Description	Current Fee Value	New Fee Value	Percent Increase
J304	Flow volume loop - Volume versus Flow Study	\$10.75	\$11.30	5.12%
J306	Airways resistance by plethysmography or estimated using oesophageal catheter	\$16.05	\$16.85	4.98%
J307	Functional residual capacity - by body plethysmography	\$17.85	\$18.75	5.04%
J310	Carbon monoxide diffusing capacity by single breath method	\$18.00	\$18.90	5.00%
J311	Functional residual capacity - by gas dilution method	\$17.55	\$18.45	5.13%
J327	Flow volume loop - repeat after bronchodilator	\$6.45	\$6.75	4.65%
J332	Oxygen saturation - by oximetry at rest and exercise, or during sleep with or without O2	\$10.80	\$11.35	5.09%
J333	Non-specific bronchial provocative test (histamine, methacholine, thermal challenge)	\$34.70	\$36.45	5.04%
J334	Oxygen saturation - J332 with at least two levels of supplemental O2	\$16.05	\$16.85	4.98%
J336	Oxygen saturation - with single blind assessment of exercise on room air and with supplemental oxygen	\$16.05	\$16.85	4.98%
Z341	Lungs and pleura – Incision - Closed drainage effusion or pneumothorax	\$69.80	\$76.80	10.03%

# New Premium for Weekend and Holiday Subsequent Visits to Hospital Inpatients by the MRP, add 45%

When subsequent visits are provided on weekends and holidays by the MRP, the physician is eligible to claim Exxx for a 45% premium; This premium is to act as a substitute to using the current MRP premium E083 (30% premium).

The physician must be registered with OHIP as having one of the following designations:

00(Family Practice and Practice in General), 02(Dermatology), 07(Geriatrics), 12(Emergency Medicine), 13(Internal Medicine),15(Endocrinology & Metabolism), 16(Nephrology), 18(Neurology), 19(Psychiatry), 22(Genetics), 26(Paediatrics), 28(Pathology), 31(Physical Medicine), 34(Therapeutic Radiology), 41 (Gastroenterology), 44(Medical Oncology), 46(Infectious Disease), 47(Respiratory Disease), 48(Rheumatology), 60 (Cardiology), 61(Haematology), 62(Clinical Immunology).

#### **Hospital In-Patient Subsequent Visit Fee Increases**

Fee code	Description	Current Fee Value	New Fee Value	Percent Increase
C472	Subsequent visits – first five weeks	\$31.00	\$33.30	7.42%
C477	Subsequent visits – sixth to thirteenth week inclusive (maximum 3 per patient per week)	\$31.00	\$33.30	7.42%
C478	Concurrent Care	\$31.00	\$34.10	10.00%
C479	Subsequent visits – after thirteenth week (maximum 6 per patient per month)	\$31.00	\$34.10	10.00%
C122	Subsequent visits by the MRP – day following hospital admission assessment	\$58.80	\$61.15	4.00%
C123	Subsequent visits by the MRP – second day following hospital admission assessment	\$58.80	\$61.15	4.00%
C124	Subsequent visits by the MRP – day of discharge	\$58.80	\$61.15	4.00%
C142	Subsequent visits by the MRP following transfer from an ICU – first visit	\$58.80	\$61.15	4.00%
C143	Subsequent visits by the MRP following transfer from an ICU – second visit	\$58.80	\$61.15	4.00%

## **Critical Care fee changes**

The MSPC recommends decreasing the value of the three Ventilatory Support codes G405, G406 and G407 by 5% and applying the savings as well as its virtual allocation to the three comparable Comprehensive Care codes G557, G558 and G559.

Fee Code	Description	Current Fee Value	New Fee Value	Percent Increase
G405	Critical Care - Ventilatory support (ICA) physician- in-charge - 1st day	\$193.45	\$183.80	-4.99%
G406	Critical Care - Ventilatory support (ICA) physician- in-charge - 2nd to 30th day, inclusive per diem	\$101.55	\$96.45	-5.02%
G407	Critical Care - Ventilatory support (ICA) physician- in-charge - 31st day onwards per diem	\$67.60	\$64.20	-5.03%

Fee Code	Description	Current Fee Value	New Fee Value	Percent Increase
G557	Critical Care - Comprehensive Care (Intensive Care Area) - Physician-in-charge - 1st day	\$325.40	\$374.35	15.04%
G558	Critical Care - Comprehensive Care (Intensive Care Area) - Physician-in-charge - 2nd to 30th day, inclusive per diem	\$213.50	\$223.50	4.68%
G559	Critical Care - Comprehensive Care (Intensive Care Area) - Physician-in-charge - 31st day onwards per diem	\$85.35	\$113.00	32.40%

## **Other Fee Changes of Interest**

- Various GP/FP Time Based K-code fee increases to be increased between 8% and 25%.
- **G512 Palliative Care case management fee** to be increased by 8%.
- G412/G408/G409 Nephrological component of renal transplantation per diem fees to be increased by about 15%.

Note: These codes represent fee codes most commonly billed by your Section. A comprehensive list of ALL recommended fee code changes is available on the OMA website <u>here</u>.

Notes:

- 1. The Schedule of Benefits changes listed above are recommended by the bilateral OMA-MOH Medical Services Payment Committee Cabinet approval is pending.
- Best efforts have been made to ensure the accuracy of information contained in this document. In the event of any errors, the Schedule of Benefits to be published April 1, 2020 is the definitive source. Further details about the Schedule will be available on the Ministry of Health OHIP Bulletins webpage <u>here</u>.
- This update was sent to you based on your primary affiliation with an OMA Section. Fee code recommendations for all OMA Sections and Medical Interest Groups are available on the OMA website <u>here</u>.
