

February 13, 2025

Dear Political Party Leaders,

On behalf of Ontario's doctors, we want to express our gratitude to each of you for your commitment to improving Ontario's health-care system during this election. All of the main parties have promised to ensure everyone in the province will have access to a family doctor within 4 years. This is a critical step toward addressing the province's health-care challenges. We appreciate your recognition that health care is a top priority for Ontarians and your leadership in elevating this conversation.

To ensure transparency and accountability, we have launched a [Party Commitment Tracker](#), which will be updated regularly until the campaign concludes. After the election, the OMA will continue to hold the new government accountable to ensure Ontarians receive the care they need and that pride is restored in our health-care system.

Health care is not just a moral imperative. It is an economic advantage. A strong health-care system supports a healthy workforce, attracts investment, and strengthens our communities. Addressing the doctor shortage and improving access to care are essential to building a healthier, more prosperous Ontario.

We look forward to working with the government and opposition parties to ensure these commitments are fulfilled. Ontario's Doctors will continue to advocate for meaningful action and hold whichever political party wins this election accountable to its promises.

Thank you for your leadership. We look forward to continued collaboration in the months ahead.
