

Report Card

Following OMA's *Prescription for Ontario*

OMA has asked Ontario's political parties to adopt and implement the *Prescription for Ontario: Doctors' 5-Point Plan for Better Health Care*. This report card shows how aligned each party is with our plan. The more stethoscopes a party earns, the more aligned the party's health-care commitments are with the *Prescription*, the more likely patients get the care they need.

				
01 Reduce wait times and the backlog of services				
02 Expand mental health and addiction services in the community				
03 Improve home care and other community care				
04 Strengthen public health and pandemic preparedness				
05 Give every patient a team of health-care providers and link them digitally				
Address northern Ontario health-care challenges
