

## **Priorities for Palliative Care**

### **Hospice Palliative Care Provincial Steering Committee**

**January 2014**

1. Early identification and access to services and supports
2. Strengthen palliative policy guidance and direction
3. Create effective planning and measurement tools to ensure resources are used optimally, based on need
4. Establish consistent and standardized education and competency requirements for all levels of care provision across care settings
5. Broaden physician engagement

Note: These priorities are taken from the document, Advancing High Quality, High Value Palliative Care in Ontario: Declaration of Partnership and Commitment to Action (2011)
